

KLOVE radio is a phenomenal station. It serves my local community and countless others by providing excellent music and information that is family friendly. If KLOVE is displaced by LPFM it will be incredibly detrimental to all KLOVE listeners. It would also be one more example of how little the FCC cares about family values. KLOVE sends out positive messages of love and faith everyday, 24/7 and is effecting change in our world today. Lives are being transformed thanks to the amazing work they do which is more than can be said for most radio stations on the air today. This change to LPFM is unnecessary and incredibly disrespectful to the countless individuals who love KLOVE and all Christian radio. I pray that you will see reason and refrain from making this unwarranted change.
